The screenshot shows the MIT App Inventor web interface. The browser address bar displays 'ai2a.appinventor.mit.edu/#10782497'. The project name is 'CloudDB8_Chat_App'. The interface includes a left sidebar with a component palette (Control, Logic, Math, Matrices, Text, Lists, Dictionaries, Colors, Variables, Procedures) and a 'Media' section with an 'Upload File...' button. The main workspace contains a block-based code editor with the following logic:

- Initialize global variables:** 'Usuario' to ' ', 'Ingresar' to 'false', and 'Chat' to 'create empty list'.
- When Ingresar_btn is clicked:**
 - If 'Ingresar' is 'true', get the value of 'Usuario', set 'global Ingresar' to 'true', and set 'global Chat' to 'append value to list' with 'tag' as 'Chat' and 'item to add' as 'get global Usuario'.
 - Else, set 'global Ingresar' to 'false'.
- When Screen1 is initialized:** Get the value of 'tag' from 'CloudDB8', set 'global Chat' to 'value of tag', and set 'global Ingresar' to 'true'.
- When CloudDB8 is data changed:** Get the value of 'tag' from 'CloudDB8', set 'global Chat' to 'value of tag', and set 'global Ingresar' to 'true'.

The Windows taskbar at the bottom of the screen shows the search bar with the text 'Buscar'. To the right of the search bar are several application icons, including WhatsApp, a red heart icon, Google Chrome, a folder icon, a presentation icon, a Word document icon, a calendar icon, and a clock icon. The system tray on the right shows the time '10:56 a.m.' and the date '18/08/2026'.

This screenshot shows the visual designer of the MIT App Inventor project. The browser address bar is the same as the previous screenshot. The project name remains 'CloudDB8_Chat_App'. The interface includes a left sidebar with a component palette (User Interface, Layout, Media, Drawing and Animation, Maps, Charts, Data Science, Sensors, Social) and a 'Media' section with an 'Upload File...' button. The main workspace displays a mobile phone mockup of the app's interface. The phone screen shows a blue header with the text 'Introduzca su nombre para entrar al chat', a text input field with a hint 'Hint for TextBox1', and a button labeled 'Ingresar'. The right sidebar shows the 'Designer' tab with a list of components on the screen: 'Etiqueta1', 'DisposiciónHorizontal', 'TextBox1', 'Ingresar_btn', 'ListView1', and 'CloudDB8'. The 'Appearance' section for 'TextBox1' is expanded, showing properties like 'BackgroundColor', 'FontBold', 'FontSize' (set to 14.0), 'FontTypeface', 'Height', 'Width', and 'Visible' (checked).

The Windows taskbar at the bottom of the screen is identical to the one in the previous screenshot, showing the search bar with 'Buscar', application icons, and the system tray with the time '10:57 a.m.' and date '18/08/2026'.
